The partners are opening The Nine hosted by Aston Martin Residences at 300 Biscayne Boulevard Way, a hospitality suite within Hard Rock Stadium, the Dolphins' home. Slated to open in 2021, the Aston Martin branded residences mark the brand's first real estate venture, making this athletic alliance a way to tease the experience available in its homes.

### Sports teaming

The Nine is situated between the 30 yard lines in the stadium, which also plays host to the University of Miami's football team as well as soccer, entertainment and other events. The open-air suites, which connect to a private club by Rockwell Group, offer guests a private entrance, complimentary car service and a concierge on game day.

Along with its partnership on The Nine, Aston Martin Residences at 300 Biscayne Boulevard Way will be the official luxury residence of both the Miami Dolphins and Hard Rock Stadium. Those who are The Nine members will get to attend events at the real estate development's sales center.

"We believe the relationship between Aston Martin Residences at 300 Biscayne Boulevard Way and The Nine is very meaningful, together with the Miami Dolphins we are excited about this first-class concept in hospitality," said German Coto, CEO of G&G Business Developments. "With Aston Martin Residences at 300 Biscayne Boulevard Way we are redefining luxury living by building a highly desirable place to live, setting new standards in both design and quality of life.

"The Dolphins have proven that their business vision and quest for the ultimate visitor experience is second to none through their extensive stadium renovation and their approach to hosting guests, offering to each visitor a unique and unforgettable experience," he said. "By combining business and performance, they are leading the way in luxury hospitality for their high-net-worth fans and we are proud to work with them."

Aston Martin's new-build residential tower will be 66 floors with approximately 390 condominiums, offering panoramic views of the Miami area and Biscayne Bay.

Scheduled to begin construction later this year and open to residents in 2021, the Aston Martin Residences will boast seven penthouses and a duplex penthouse, each with its own private pool and terraces. The building will also house a range of one to four bedroom condominium units ([see story](#)).
