Described as groundbreaking, the Radiance Collection introduces specially made racks to accommodate a wide range of glassware and a powerful drying solution. These appliances are also designed as fashionable pieces in affluent's homes and come equipped with a convenient application.

### Luxury dishwashing

Mobile application Thermador Connected Experience by Home Connect accommodates the new collection, allowing remote start and glass care tips. The app is made to make consumers' lives easier in a high-end manner.

The collection's Star Sapphire Dishwasher includes a StarDry with Zeolite feature that reduces the need to air or towel dry items. It also includes a 20-minute hot water cycle, known as the fastest in the industry.

For an aesthetically pleasing experience to up the style of the pieces, a Star Glow feature is installed, allowing customers to choose up to six different lighting options.

A special Glass Care Center joins the collection with a special gentle cycle and no-slip soft rubber lower rack and adjustable stands for special stemware. It is specially designed for a variety of sizes and can hold up to 26 large wine glasses.

Utensils, small plates and other cutlery can fit in the top level of the appliance.

“The revolutionary Thermador Radiance Collection delivers an impressive selection of luxury dishwashers that serve as stylish centerpieces to any occasion, whether an intimate gathering or lavish event,” said Beatriz Sandoval, director of brand marketing at Thermador, in a statement. “From exclusive, pioneering technology, to unique customizable features, to exceptional performance and cleaning power, the statement-making Radiance Collection exudes lux innovation at its finest.”

Thermador recently highlighted its innovations and designs as a sponsor of two showcase homes at the International Builders Show in Orlando, FL.

Presented by the National Association of Home Builders, the 2018 New American Home and the New American Remodel featured an array of Thermador cooking, cleaning and cooling appliances. Placing its products in these model home environments may encourage visitors to experiment with design and customization ([see story](#)).
