The grand touring convertible's debut is part of Bentley's European summer tour, with dates to be announced. The Continental GT Mulliner is the first member of the "Collections" portfolio by Bentley Mulliner, the automaker's bespoke division.

Bentley debut

The new Mulliner convertible is also part of Bentley's Continental GT family which includes coupes and other convertibles. It will be available with Bentley's V8 and W12 powertrains.

For the exterior, customers can choose from Bentley Mulliner's range of 88 piano veneers. If those shades do not meet clients' expectations, they may commission a bespoke color matched to any item or sample.

Other exterior features include a Double Diamond front grille and a new Mulliner 22" wheel design.

The hand-stitched interior is offered in eight custom-made three-color combinations. Nearly 400,000 stitches are used for the contrasting Diamond-in-Diamond interior quilting.

Orders for the new Continental GT Mulliner convertible are not yet available in several countries, including the European Union's 27 member nations.

According to the automaker, Bentley Mulliner Collections will continue to introduce "luxury-focused derivatives of the core Bentley range" with the added ability of personalization.

The automaker recently highlighted its bespoke capabilities with a colorful Continental GT V8 convertible car.

Bentley partnered with Cheshire East Council for the North West of England's first virtual Pride event on July 25. The convertible car was wrapped in a rainbow design showcasing six of Bentley's bespoke paint colors ([see story](#)).
