State of Luxury 2019 **Save \$246 ▶**

Dubbed "The Show Room," the 1,719-square-foot private gated garage is located within the new Pendry Residences West Hollywood and provides direct access through a private elevator to a two-story penthouse residence. In addition to the one-of-a-kind garage space, the purchaser of the residence and garage will receive an allocation for a one-year lease of the McLaren 765LT.

"We are delighted to be working with Pendry Residences West Hollywood to help create the ultimate auto enthusiast's dream garage," said Tony Joseph, president of McLaren North America. "The 765LT is the most dynamically advanced and engaging McLaren LT model to date.

"With allocations for the US market already filled, this is a unique chance to experience this incredible supercar."

One-of-a-kind garage

The garage offers ample space for up to five cars, a private washroom and a design allowance for the purchaser to customize the garage as they see fit including an option to create the ultimate McLaren garage designed by **EYRC Architecture** in collaboration with McLaren Automotive.

The garage is being offered together with Terrace Estate 608 for a package price of \$16 million.

The McLaren 765LT is one of the most sought-after cars on the market. With only 765 set to be available globally, and this year's allocation already completely sold out, access to this model is rare. McLaren is also including one of the newly released kid's ride-on electric-powered McLaren Senna cars for any young aspiring car enthusiasts.

This week, McLaren joined forces with U.S. streetwear brand Period Correct to produce its second joint capsule collection. The designs for the limited-edition collection will draw inspiration from the 720S vehicle and the 765LT.

The collaboration follows the success of the two companies' partnership in 2018 when they introduced the McLaren F1 inspired capsule collection ([see story](#)).
