The Bentayga S sports model joins the existing hybrid, V8 and Speed versions of the SUV, which debuted in 2015. With a top speed of 180 mph, the Bentayga S has the power and aesthetics reminiscent of a sports car.

Sports mode

Bentley has introduced an enhanced Sport mode for the Bentayga S, similar to the Continental GT Speed. Thanks to an increase in air suspension damping and unique stability control, this mode offers improved steering feel, greater turn-in response and reduced body-roll.

The new S model is more responsive but still features off-road abilities, with optional all-terrain specification for four different terrains.

Bentley adds to its Bentayga lineup

Available with a four-, five- or seven-seat cabin, the Bentayga S has exterior and interior updates suited for its enhanced performance.

This includes front and rear bumpers with back detailing; rear, dark tint lamps for drama; 22" wheels in new finishes; leather seats with "Bentayga S" embroidery and more.

Clients can further personalize their vehicles with exterior paint finishes, interior hide colors, wooden veneers and other technical options. In addition to the optional all-terrain features, drivers can add touring specification, select

their ideal sound systems and choose other upholstery details, such as stitching and embroidery.

Earlier this year, the automaker launched the updated Bentayga hybrid, its electrified luxury SUV. In a one-minute teaser, Bentley showcased the "tranquility" of the car, which is now available to order in the U.S., Canada, Puerto Rico and China ([see story](#)).
