The unique suitcase is crafted with Rimowa's signature aluminum and poignant Fendi details, bringing together codes of two LVMH houses. The new piece will be available in Fendi stores starting September 2021 and on Fendi.com as a pre-launch later this month.

Traveling in style

The new suitcase from the partnership brings one-of-a-kind to a new level, with a name tag in Cuoio Romano leather so that buyers can add their initials with hot stamping, as is customary for Fendi bags.

The suitcase also features black Cuoio Romano leather handles on the top and side and Fendi's emblematic FF logo appears with a brushed effect on the aluminum.

The suitcase is available in total black or in a natural aluminum color with contrasting black handles. The cabin of the suitcase is equipped with a multi-wheel system to ensure smooth, effortless travel.

The interior of the suitcase has a modern black lining, also with the embossed FF logo.

Rimowa and Fendi first collaborated in the fall of 2017.

In its first collaboration, Rimowa designed an aluminum carry-on case with the sophistication of Fendi's styling details.

Part of its Topas luggage line's 80th anniversary celebrations, the limited-edition carry-on case was the first time Rimowa has collaborated directly with Fendi on a project ([see story](#)).
