By LUXURY DAILY NEWS SERVICE

U.A.E.-based hospitality brand One&Only Resorts is giving clients the option to enjoy its ultra-luxury sites longer term.

The company has launched its new Private Homes Rental Program, granting access to extended standalone villa stays in select destinations. Beginning this April at One&Only Le Saint Gran in Mauritius, the program extends to properties in Mexico, Montenegro and Greece, with plans to loop in the American market soon, starting in Montana.

"One&Only Private Homes are a cornerstone of Kerzner's growth strategy to meet the rising demand for ultra-luxury and multi-generational living within exclusive and personalised spaces," says Mark Kirby, president of **One&Only Resorts**, in a statement.

"Our Private Homes cater to the world's most influential individuals across Mauritius, Mexico, Montenegro, Montana (USA), Greece and Dubai," Mr. Kirby said. "The Rental Program offers an unparalleled lifestyle, and an experience which anticipates our guests' every need."

Hospitality scales via private homes

The Private Homes Rental Program promises the comforts of home alongside the signature service of One&Only resorts.

At Le Saint Gran, the standalone villas offer between two and six bedrooms, each with private pools, expansive gardens, and indoor-outdoor living areas. Guests also gain access to the full range of resort amenities including restaurants, spa facilities, fitness programs and the KidsOnly club.

Each rental includes housekeeping and turn-down service, plus a personal host to coordinate activities, in-villa dining and pre-arrival customizations. Exclusive guest experiences such as local cooking classes, artist residencies and private diving excursions are also available.

A highlight of the Mauritius debut is RIVA, a new Italian dining concept situated poolside at the Private Homes community featuring a Riviera-style ambiance, curated cocktails and an on-site deli.

Other available homes include those at One&Only Mandarin in Mexico and One&Only Ka Island in Greece, with Montana’s Moonlight Basin set to join the portfolio later this year.

The new rental program aligns with One&Only’s broader expansion strategy under parent company Kerzner International, meeting increasing demand for flexible, multi-generational accommodations in remote and luxury destinations 81 percent of respondents to a recent American Express Travel survey expressed a preference for destinations that cater to all generations, including family-friendly resorts ([see story](#)).
